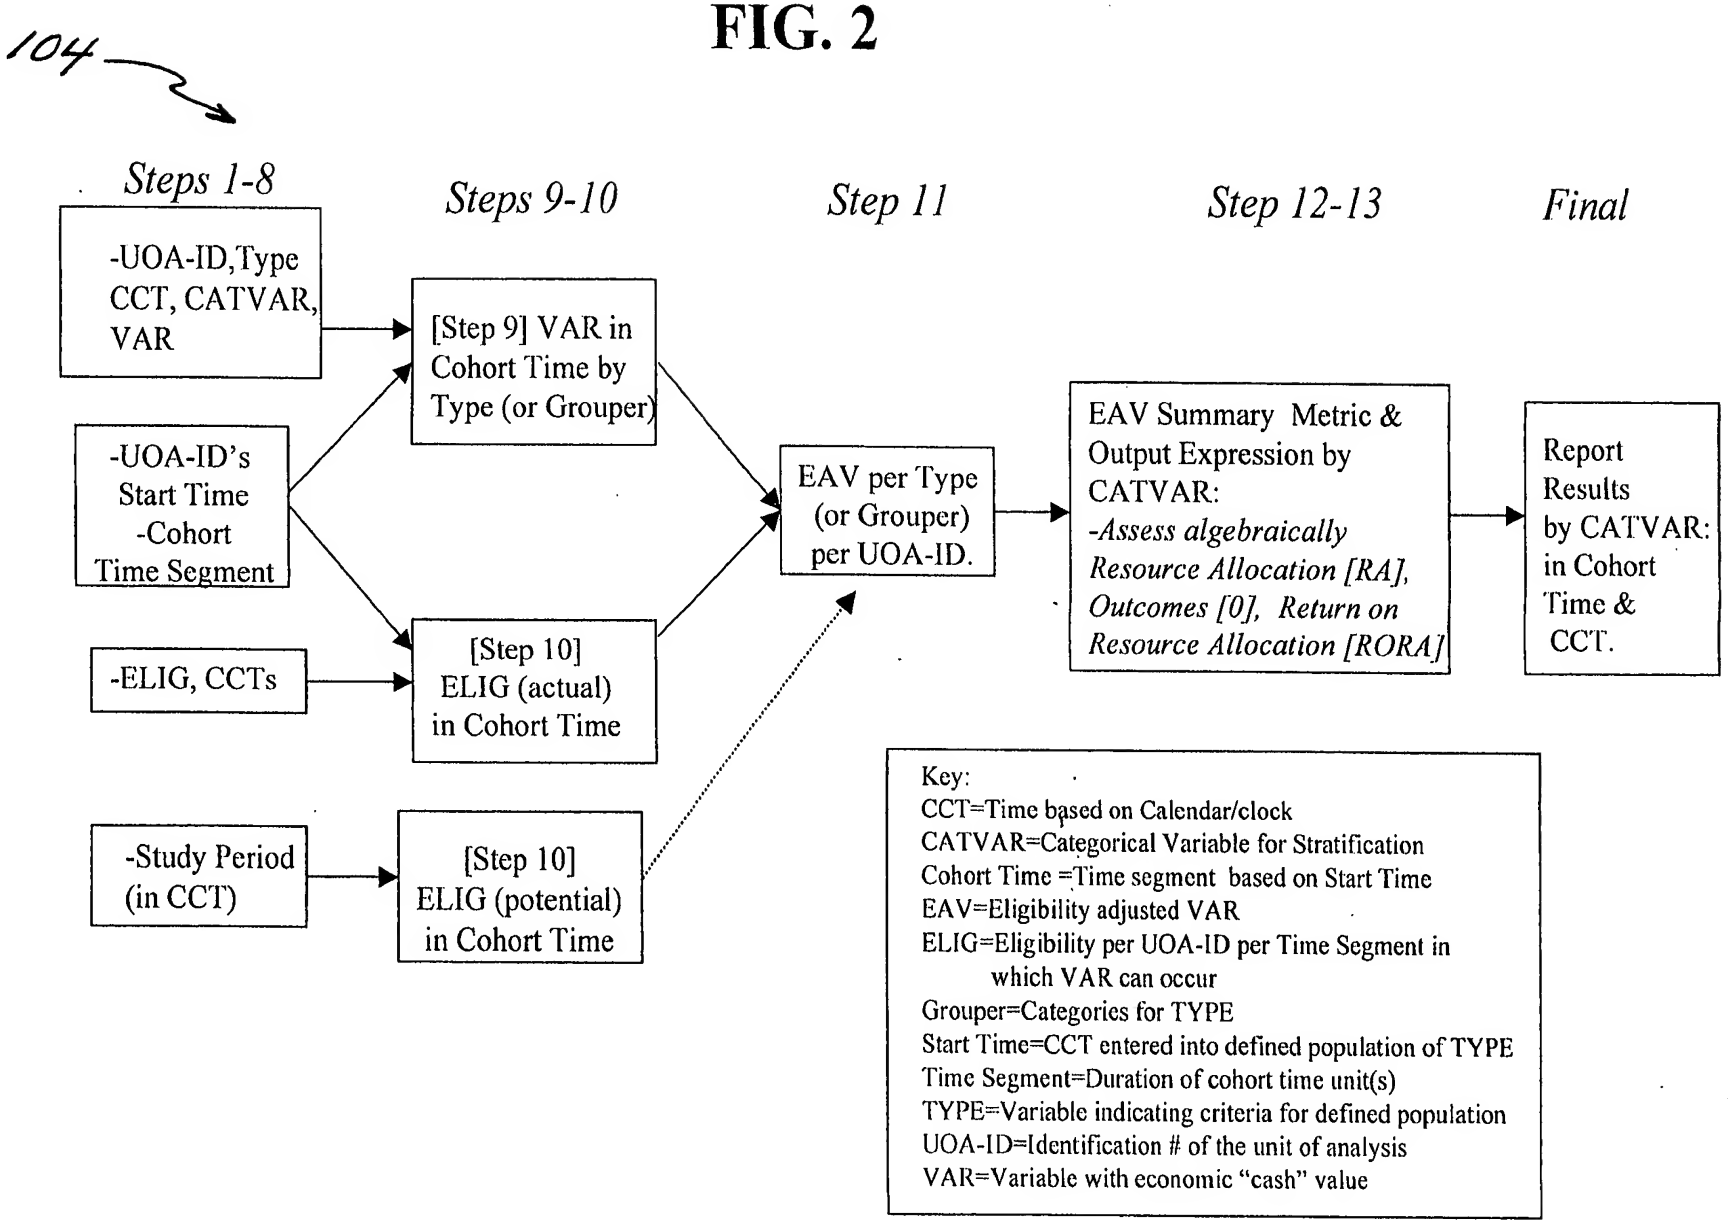
FIG. 2



104
Steps 1-8
Steps 9-10
Step 11
Step 12-13
Final
-UOA-ID,Type CCT, CATVAR, VAR
-UOA-ID's Start Time -Cohort Time Segment
-ELIG, CCTs
-Study Period (in CCT)
[Step 9] VAR in Cohort Time by Type (or Grouper)
[Step 10] ELIG (actual) in Cohort Time
[Step 10] ELIG (potential) in Cohort Time
EAV per Type (or Grouper) per UOA-ID.
EAV Summary Metric & Output Expression by CATVAR:
-Assess algebraically Resource Allocation [RA], Outcomes [0], Return on Resource Allocation [RORA]
Report Results by CATVAR: in Cohort Time & CCT.
Key:
CCT=Time based on Calendar/clock
CATVAR=Categorical Variable for Stratification
Cohort Time =Time segment based on Start Time
EAV=Eligibility adjusted VAR
ELIG=Eligibility per UOA-ID per Time Segment in which VAR can occur
Grouper=Categories for TYPE
Start Time=CCT entered into defined population of TYPE
Time Segment=Duration of cohort time unit(s)
TYPE=Variable indicating criteria for defined population
UOA-ID=Identification # of the unit of analysis
VAR=Variable with economic "cash" value
